INSTRUCTIONS TO INSTALL IMMOBILIZER KIT

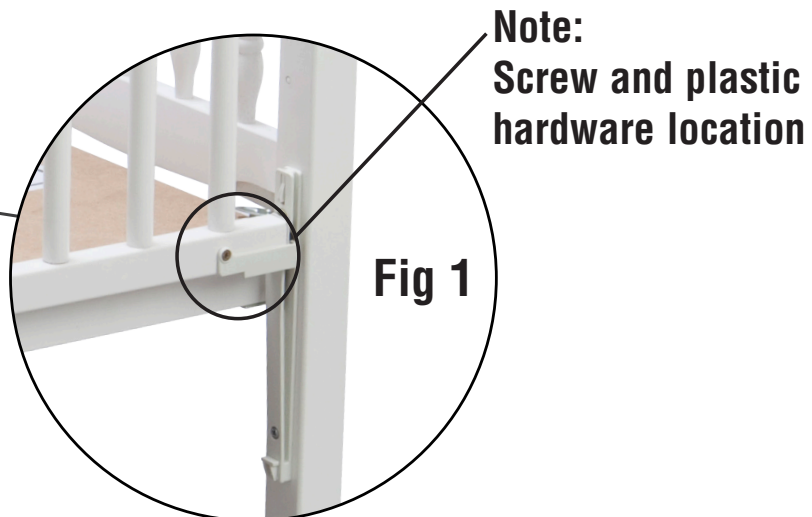

WARNING

Failure to follow these warnings and instructions could result in serious injury or death. Red Safety Clips must be installed when crib is in use.

Parts:
Immobilizer Kit
(Red Clip) 2 pieces

Prior to installing the Immobilizer Kit, ensure that the dropside rail is assembled correctly and matches the photos with screw facing out on both top and bottom rail. See fig.(1)

Note:
Screw and plastic hardware location

Dropside rail must be in the raised and in the locked position.
Make sure there are no broken or missing parts.

If parts are missing or broken,
DO NOT USE THE CRIB and call 212-645-9033

continued on next page

INSTRUCTIONS TO INSTALL IMMOBILIZER KIT

1. Position the right **Red Clip** (marked “R” on the side of clip) just above bottom Track located on the bottom right side of rail. See fig (2) and (2a).
2. Slide down right **Red Clip** until tab clicks into place. See fig (3).
3. Repeat steps 1 and 2 on left side of crib using the left **Red Clip** (marked “L” on the side of clip).
4. Push-down and pull-up on top rail to verify that the **Red Clips** are properly secured in place. If rail does not lock in the “UP” position or moves by more than 1/2”- please contact customer care number 212-645-9033.
